

COMMERCIAL CONVENTIONAL GRINDER

Maxel's Commercial Conventional Grinder is the world's first and oldest wet grinder model, which is the electromechanical version of the old stone grinding method. With the heavy roller stones the result is a super fine grinding function, making thick and lump-free batter.

It comes with a strong, durable build and is perfect to accommodate urad dhal grinding which increases in volume. With the combination of traditional technique and sturdy construction, this grinder is perfect for commercial use!

Features

Traditional
Technique

High Density
Grinding Stones
For Fine Batter

Complementary
Coconut Scrapper

SS Drum
And Body

Vibration Resistant
Motor Bed

Leg Bushes For Lesser
Noise And More Stability

Handle For
Easy Locomotion

Sturdy
Tension Belts

Leak Free & Less
Load Transmission
Gear Box

COMMERCIAL CONVENTIONAL GRINDER

Technical Specifications

Product Code	Output Capacity in Litres	Input Capacity in kg	Motor Power in HP	Motor Phase	Grinding Time in Mins	Vessel Size (Dia x H)	Machine Dimension (LxBxH)	Machine Weight in kg
