

COMMERCIAL WEDGING MACHINE

The Maxel Commercial Wedging Machine is a highly time saving tool for all your wedging needs. It can wedge any fruit into 6, 8, 10 and 14 wedges as per your requirement. Blades with sharp edges made of AISI 304 Food Grade Stainless Steel aids in easy cutting all the time. The fruits are processed in a hygienic way as these machines work under air pressure. The compact size of the machine makes it a portable one.

Wedging fruits will never be a tedious work, if this one is with you.

COMMERCIAL WEDGING MACHINE

Specifications

Product Code	LEP1057	LEP1091
Output Capacity	900 Nos / Hr	900 Nos / Hr
Operating Voltage	NA	220V 50Hz
Compressor Tank Capacity	NA	25 Litres
Compressor Dimensions in cm	NA	33" x 18" x 28"
Compressor Weight in kg	NA	38 Kg
Processing Time per Fruit	6 Secs	
Operating pressure	5 - 6 bar	
Machine Weight in Kg	40	
Machine Dimensions in cm	47 x 44 x 97	
Available Number of Wedges	6,8,10 and 14	

Machine with above product codes operate on 220V 50Hz. For 110V 60Hz variant, please visit our website.
