## Dear Customer,

Thank you for choosing our product. We are glad to welcome you to the Maxel family.

At Maxel, we make products with precision and utmost quality, ensuring that our customers derive complete value for their money. More than making our job effortless, we are delighted that we are assisting you in making the tastiest and healthiest foods every day!

### Technical Specifications:

Output Capacity	:	2 Litres
Input Capacity	:	850g of Soaked Rice 250g of Soaked Dhal
Model No	:	LEP884
Motor	:	1/5 HP Single Phase
Nett. Weight	:	16 Kg Approx
Voltage & Freq	:	230V 50 Hz
Body Make	:	Virgin ABS
Attachments	:	Atta Kneader & Coconut Scrapper

### **One-time Instructions:**

For the first two times, kindly discard the rice ground. Start using the batter only from the third usage.

### **Sequence of operation:**

1. First, clean the drum unit along with roller stone assembly with water.
2. Fix the drum unit with roller stone assembly in the place of center shaft provided, slightly rotate until it gets seated. Roller assembly should have the stopper plate in the direction opposite to that of the switch as shown in the label.
3. Keeping the top nut with spring in place over the shaft, rotate it for 4-5 rounds in clockwise direction from top. This can be still rotated when more grinding pressure is needed.
4. Plug the wire into a socket of appropriate voltage and turn the grinder on using the switch provided.
5. Now feed the soaked grains (to be soaked for at least 4 hours) gradually with adequate water. It is recommended to use our measurement cup to measure the amount of rice to be ground. (Max 4 cups)

## **Sequence of operation (Contd.)**

6. Now close the drum unit with lid.
7. Water can be added as and when required to obtain the required consistency in batter.
8. After attaining the batter of required consistency, switch off the grinder.
9. Now pull the handle horizontally outward and tilt the grinder till it get locked in tilted position. Collect the batter and tilt back the grinder. The handle will automatically go back to its original position.
10. Clean the drum and roller stones immediately for an easy and effortless process. If not, please add water up to the roller stones and soak the same, until you find time to clean it.
11. Wipe the product with dry cloth after each grind.

## **Using Atta Kneader:**

1. In order to knead atta, gently remove the stone assembly, fix Atta kneader & tighten the top nut. Now switch ON the grinder, feed approx. 250g of Atta along with required salt and water.
2. Add water gradually till you get required consistency
3. When done kneading, switch OFF the grinder, take the dough out.

## **Using Coconut Scrapper:**

1. In order to scrap coconut, gently remove the stone assembly, fix Coconut scraper. Now switch ON the grinder & then place one half of coconut on the top & hold it.
2. When done scrapping, switch OFF the grinder, take the gravels out.

## **Do's:**

1. Please read all the instructions in this manual before using the product.
2. Always keep the grinder clean and dry when not in use.
3. Lift the grinder only by holding its base.
4. Watch the grinder frequently when it is in operation.
5. Please keep the grinder out of the reach of the children.
6. Please ensure the product has proper earthing.
7. Ensure that batter/water is not reaching the lower level of main shaft visible below the top nut.
8. Please keep the grinder on a flat and non slippery surface.

## **Don'ts:**

1. Do not run the grinder empty for more than 10 seconds.
2. Do not try to remove the top nut when the grinder is in operation.
3. Do not overload the grinder beyond its maximum capacity. If required quantity is beyond grinder's capacity, kindly split the quantity into 2 or 3 batches and then grind.
4. Do not use any other attachments other than those provided by us.
5. Do not clean the drum with water, when it is fixed in the grinder.
6. Do not turn the switch knob. Press gently to turn ON/OFF the grinder.
7. Do not tilt the grinder while running.
8. Do not pull the lock handle vigorously.
9. Do not put hands inside the drum while running.
10. Do not tilt without top nut.
11. Do not switch ON the grinder after adding all of the grains to be ground.
12. Do not touch the scrapper while running in bare hands as it might hurt badly.

*Happy Grinding!*
