

INSTRUCTION MANUAL

Commercial Dough Ball Maker

Dear Customer,

We are glad to welcome you to the maxel family. At maxel, we make products with precision and at most quality, ensuring that our customers are deriving complete value for their money.

More than making your job effortless, we are delighted that we are assisting you in making the tastiest and healthiest foods every day!

Directions to Use:

- Upon un-wrapping, remove the warranty card from the machine and keep it safe.
- The order to be followed for using the machine is as follows.
 - Clean the machine with dry cloth.
 - Switch ON the compressor, open the outlet valve & wait for 5-10 minutes.
 - Check if the pressure is set to the desired value at the back of the machine.
 - Fill the feeder pipe with adequate dough.
 - Fix the ball size by rotating the knob given at the side. Rotating the knob in CW direction as seen from top increases the ball size while the vice versa reduces the ball size.
 - Press the START button & start arranging the cut balls.
 - Once the current batch is over, press the STOP button.

- Repeat the previous 4 steps for further batches.
- After the process is over, remove the cutting plate by unthreading two black knobs, remove the bottom nut in the feeder pipe, its Nylon cut bush & its tray and wash it with water. Clean the machine along with tray with wet and dry cloth after every use.
- The count of balls cut will be shown in the screen.
- Switch OFF the compressor, open the drain valve to release excess water, then close the output valve.

Do's & Don'ts

- Periodically ensure the oil level in the lubricator in a weekly basis.
- Keep the machine in a flat & non-slippery surface.
- Keep the machine out of the reach of the children.
- Ensure the feeder pipe nut is in full tight when the machine is in use.
- Periodically do the maintenance activity for compressor as instructed in its manual.
- Do not run the machine before reading this manual.
- Do not run the machine empty.
- Do not run the machine without proper earthing.
- Do not use any third party accessory in the machine.
- Do not put the hands either inside the feeder pipe or inside tray at sensor's height while the machine is running.
- Do not wash the machine directly with hoses. Please wipe it with wet and dry cloth.
