

INSTRUCTION MANUAL

Commercial Onion Peeler

Dear Customer,

We are glad to welcome you to the maxel family.

At maxel, we make products with precision and at most quality, ensuring that our customers are deriving complete value for their money. More than making your job effortless, we are delighted that we are assisting you in making the tastiest and healthiest foods every day!

Directions to Use:

- ❖ Upon un-wrapping, remove the warranty card from the machine and keep it safe.
- ❖ In case of a three-phase machine, connect the wire to a three-phase power source using appropriate plug. Power ON the machine. In case, the machine is not running in CW direction seen from top, interchange any 2 wires. In case of single phase, machine is electrically ready for plug and play.
- ❖ The order to be followed for peeling is as follows.
 - * Clean the inside of the drum with water.
 - * Make sure the output shutter is closed properly. Also make sure hose collar on the top of the lid is connected with pressurised water inlet.
 - * Feed the onions a little below the capacity of the machine in order to ensure durability.
 - * Close the lid and open the water inlet.
 - * Now turn on the machine.
 - * Now wait for 2-5 minutes and check for the status of peeling.

- * Once all onions are peeled, keeping the machine running, place a vessel near the output, open the output shutter and peeled onions will automatically come out. Now close the shutter.
- * Repeat the previous 6 steps for further batches. Turn off the machine after use.
- * Clean the inside of the drum with water. Use wet and dry clothes to wipe the outside of the machine.

Do's & Don'ts:

- ❖ Keep the machine on a flat and non-slippery surface.
- ❖ Keep the machine out of the reach of the children.
- ❖ Make sure there is proper draining for the machine, failing which leads to accumulation of water inside the drum.
- ❖ Do not use the machine before reading this manual.
- ❖ Do not overload the machine beyond its capacity.
- ❖ Do not use any third-party accessory in the machine.
- ❖ Do not run the machine empty for more than 10 seconds.
- ❖ Except inside of the drum, do not try to wash the machine directly with hoses. Please wipe it with wet and dry cloth.
- ❖ Do not put the hands inside the drum while running.
- ❖ Do not run the machine without proper earthing.
- ❖ Do not rub the emery sheet with any tool or cloth.

Caution : In case of overriding of the above-mentioned instructions, warranty becomes void.
